Subject: Injury to William Slaten Hunt
while under arrest and injury sustained
by Officer J. D. Tippit.

Sir:

The following report is submitted for your information.

While assigned to District 101 we received an attempt suicide call at 111 N. Bishop. On our arrival it was found that this was a disturbance involving arrested party. Sgt. W. G. Jennings was present at this call.

The arrested party was handcuffed and brought to the City Jail for Disturbing the Peace. On our arrival in the jail upstairs the handcuffs were removed as the prisoner was quiet. While writing up the arrest sheets the prisoner struck Officer J. D. Tippit in the right eye with his fist. The prisoner was subdued and received minor scratches about his face. Arrested party was treated in the jail by Police Emergency Doctor and released to be placed in jail, charged with Disturbing the Peace and Investigation of Aggravated Assault on Police Officer.

Officer Tippit was treated at Parkland Hospital for a small laceration above right eye and released for duty.

Witnesses to this incident were Officer S. O. Littlejohn and H. L. McGee.

Subject: Injuries sustained on duty.

Sir:

The following report is submitted for your information.

While working district 104 April 28, 1956 we received a call at 8:28 P.M., to 731 N. Edgefield, regarding a demented person.

Upon our arrival at this location we contacted Mrs. Vicki Shaver, w/t/25, who was standing in front yard and stated that her husband had run her out of the house with an ice pick and threatened to kill her and commit suicide. She further stated that she wanted us to go into the house and get him out.

We went to the front door where the suspect, Robert Lee Shaver, w/m/25, was standing and creating a disturbance by talking loud and threatening his wife. We asked him to come outside and he refused.

We pulled the screen door open as he shut the wood door. We opened the door and as officer D. H. Smith and I went in, he stabbed officer Smith in the left shoulder with an ice pick and I was stabbed in the stomach and right knee.

Suspect was subdued and handcuffed and was transported to City jail by officers L. G. Speers and J. D. Cober. Suspect was charged with assault to murder.

I received treatment at Parkland Hospital by Dr. Greathouse and returned to duty.

Respectfully Submitted

Attn: Mr. Roach

Re: J. D. Tippett

Dear Mr. Roach:

The following is a copy of my record on the above named patient first seen by me in the office on 11/6/56.

Family history is essentially negative. The patient states that he had an abdominal distress about 2 1/2 years ago and was treated at the Veterans Hospital without a definite diagnosis being established. He recovered and has had no difficulty since.

The patient states that about April, 1956 while on duty for the City of Dallas he and a fellow policeman were attempting to arrest a mentally ill patient when the patient stabbed him in the right knee with an ice pick. The patient reported to Parkland Hospital where emergency care was carried out but no x-ray made. The following day there was considerable swelling and the patient then returned to Parkland where further care was administered. Ace bandage was then applied and the patient states that after about three days the swelling seemed to subside. He limped for about two weeks after this, but then seemed to be doing quite well until about six weeks ago when he noticed that he developed pain in his right knee again. He noticed pain mainly after sitting for any length of time. The pain would seem to be in the region of the previous wound. His leg has felt weak since the injury but he thought that this would continue to improve. However, it has not and seems to be increasing in the amount of weakness over the past six weeks. He is referred to the office this date by the City of Dallas for evaluation.

Physical examination is essentially negative. The penetrating wound over the lateral aspect of the right knee is well healed. No loose bodies are felt and there does not appear to be any swelling of the knee this date. There is pain, however, on compression of the patella against the femur. AP and lateral views of the right knee reveals a metallic foreign body penetrating through the patella in the superior pole and approximately 1/4 to 3/8 inch of the sharp point of the metal is protruding into the articular surface between the patella and the femur. There does not appear to be any severe reaction about the metallic body this date. Diagnosis is (1) metallic foreign body, articular surface, patella and femur, right and (2) synovitis, knee joint, right, traumatic and secondary to #1.

City of Dallas

2

Re: J. D. Tippet

It is recommended that this knee be explored and the metallic body removed and any degenerative cartilage removed as a result of wear and tear from the sharp point. This should be carried out as soon as possible and the patient is scheduled for November 16th unless the City of Dallas advises otherwise. Surgery is to be carried out at Methodist Hospital.

It is estimated that this patient will be off work approximately 3-4 weeks minimum and maximum about 3 months depending on the amount of damage that is found at the time of surgery. There will definitely be permanent disability to this knee in any event, but the sooner the surgery is carried out, the less the permanent damage.

Trusting this institutes your orthopedic record on this patient, I am,

Very truly yours,

HAM/pds

My right knee has been bothering me for several weeks. This is the same knee that was stabbed by an ice pick on April 28, 1956.

Captain Solomon advised me to see Dr. Mattson, 630 No. Bishop, who is on the approved City Doctors list.

I went there on Tuesday, November 5, 1956. X-rays were taken and it was disclosed that there is approximately one-half inch of the tip from the ice pick embedded in my right knee cap.

Attn: Mr. Roach

Dear Mr. Roach:

The following is a progress note on the above named patient dated 12/19/56.

Check x-ray of the right knee this date reveals the articular surface of the patella to remain in good condition following the surgery and removal of the metallic fragment. Clinically the patient can extend completely and can flex to about 80 degrees. He is now to begin doing bicycle exercise to help increase flexion and is also to begin increasing activity gradually and attempts at driving his car. If after the first of the year the patient feels that he can handle himself well enough for limited activity, he may return to this status of work and he is to report back in six weeks for re-evaluation and further indications. If he is unable to handle himself for limited activity, he is to refrain from work until his next examination.

Enclosed is a statement for services rendered.

Very truly yours,

Dear Mr. Roach:

The following is a progress report on the above named patient dated 3/12/57.

NEW COMPLAINT: Patient states that on 3/5/57 he accidentally made a mis-step after getting out of his car, while on duty and twisted his right foot sustaining injury to his right knee. Following this he had considerable pain and swelling about the knee and was unable to work for about a week. He reports to the office this date for evaluation.

Physical examination reveals some increase in the temperature of the right knee and still persistent moderate swelling about the knee joint and the knee cap. He has good range of motion and the ligaments are stable however. Diagnosis is strain, knee joint, right, moderately severe.

It is recommended that this patient refrain from work or strenuous activity other than maybe a desk job for a period of another week and then, if symptoms have subsided, gradually return to his previous activity reporting back to this office in a month for re-evaluation. He is to return immediately should his symptoms increase or fail to improve.

Gentlemen:

The following is a medical report on the above named patient last seen by me in my office on 1/7/59.

Re-examination this date reveals good range of motion and very little crepitation of the articular surface on active motion. It is felt that in view of the good range of motion and no joint effusion, x-ray be postponed until next visit. It is recommended that he not do activity of crawling on his knees, such as laying floor, etc. This is not essential in his job, therefore should be of no concern. He is to continue quadriceps exercise and continue full activity as is and report back in six months for x-ray, AP and lateral of the right knee and a tangential view of the patella to show the articular surface. Further indications on re-examination.

Trusting this brings your orthopedic record on this patient up to date, I am,

Very truly yours,

Re: J. D. Tippet
Police Department

Gentlemen:

The following is a medical report on the above named patient dated 8/13/60.

The patient states that he has been in excellent condition since his last examination in January, 1959 and that he has had no difficulty with his right leg. He states that on 8/12/60 while driving a patrol car he began having pain in his right leg involving the hip and the knee with difficulty in utilizing the brake and the accelerator. This gradually subsided then increased in pain to where he could hardly utilize his leg and he was brought to the office this date by his sergeant for evaluation.

Physical examination reveals some tenderness about the right hip with marked guarding of motion and loss of flexion and rotation. There is some tenderness about the right knee. X-rays of the right hip and pelvis are negative.

Diagnosis is synovitis, hip joint, right, acute, cause undetermined this date.

It is felt that this patient has an acute synovitis of the hip joint which maybe the result of prolonged sitting and car driving, however, it may be on an infectious basis or on the basis of calcific deposit developing in the hip joint. In view of this the patient is to refrain from work for one week, he has been placed on aristogestic drug for inflammatory process and drug for pain. He is to return immediately if he begins developing fever or if symptoms increase. Further indications await his return visit in a week.

Enclosed please find a statement for services rendered to date.

Very truly yours,

HAM/s

Gentlemen:

The following is a progress report on the above named patient last seen by me in my office on 8/19/60.

There has been marked improvement in the guarding of the right hip motion and patient has begun walking today a little bit without too much pain. It is recommended that the patient continue his drug for the remainder of the dosage that he has, that he increase his activity gradually over Saturday, Sunday and Monday and that he return to work on Tuesday if pain free. He is to return this office in two weeks for possible final evaluation of the present complaint.

Gentlemen:

The following is a progress report on the above named patient last seen by me in my office on 9/2/60.

The patient returns this date stating that he is gradually improving and has resumed work, however he has a slight amount of aching pain about the right trochanter during a tiring day. He is able to relieve this by local heat applications. Today the tenderness is markedly improved, he still has slight guarding of his right hip motion. He is to continue work, local heat as needed and return in six weeks for possible final evaluation. He is to return sooner for injection therapy if necessary.

Duty

Sir:

On December 7, 1961, at 11:45 P.M., while working squad 83, I received a radio call to Jefferson Blvd. east of Westmoreland, regarding a disturbance.

While proceeding north on Hampton Rd. enroute to the call, I observed two vehicles blocking the intersection of Hampton and Jefferson Blvd. The occupants of these vehicles, five white males, were fighting in the street. In quelling the fight and the subsequent arrest, I was scratched on the left side of the face by one of the participants. I do not know which of the five persons made the scratches.

I contacted Sergeant Hugh F. Davis who admitted me to Parkland Hospital, where I received a tetanus shot and was released to duty by Doctor V. Yoder.

Driver of City vehicle #1 stated: "I was traveling East on Jefferson in the right curb lane of traffic at approximately 20 - 25 MPH. There was a vehicle in the lane of traffic next to the center parkway, also traveling East on Jefferson. The rear wheels of the other vehicle were about even with my front wheel, then it suddenly changed traffic lanes without signaling. The right side of the private vehicle struck the left front of the squad car."

Officer E. H. Wilbert, a passenger in the Police car stated: "I was in the right front seat of the Police car. I was looking out the right side of the squad car and did not see the other car until I felt the impact."

Mr. C.F. Hansson
Chief of Police,

Sir:

I submit the following report for your information regarding a city employee placed in jail.

On January 23, 1953 at approximately 9:20 PM we entered the Red Devil Club, 2500 blk. West Davis on mark-out. The special officer C.E. DuBois #39, had arrested Ray Franklin Smith w/m/42 of 2710 El Tivola. Officer DuBois told us Mr. Smith had apparently lost some money in the telephone and was shaking it violently. When officer approached, Mr. Smith demanded a refund. The officer asked Mr. Smith to leave and Mr. Smith refused almost tearing the officer's badge off of his shirt trying to determine the number. Mr. Smith had strong alcoholic breath and was staggering. We placed him in jail and charged him with D & D. Mr. Smith said he is employed by the City of Dallas, Public Works Department as an engineer.

Dear Chief Hansson:

I believe in commending a man when he deserves it. Such a man is Officer J. D. Tippit, badge No. 848. I have never before received a traffic summons for speeding, but I have heard many people tell how impolite policemen can be when issuing them, especially for speeding. I came through your city violating your law at 5:30 in the morning. Officer Tippit was very polite and courteous. He patiently explained what I had done wrong and was never even gruff. I believe that this is unusual at 5:30 in the morning, after probably working all night. My faith in and respect for police officers has been renewed.

I do have two suggestions to offer. In driving through Dallas yesterday morning on my way to Fort Worth, I was almost involved in an accident three or four times by other drivers cutting out of their lanes into mine. I do not know if this is a violation of your law or not, but it is extremely dangerous unless the other driver makes a hand signal. This seemed to be quite common with no attempt at correction. The other suggestion is that on highway 80 (business route) you place some larger signs telling the speed limit. I entered the city and there was a large sign saying, "Speed limit 40 miles per hour." As I continued on toward town, I did not notice any other speed signs. I had noticed before that on the traffic signals there were signs saying that the traffic signals were set for 30 miles per hour. After my arrest, I looked at the next traffic signal and I saw in rather small lettering, "Speed limit, 30." Here in Longview, highway 80 has a speed limit of 40 until you come into town and it is reduced to 35, but there are several large signs telling out of town drivers. When you are used to this speed and driving in a strange city, it is good to have large signs telling you the speed limit.

I have sent a similar letter to Judge O'Brien with my check for \$10.00, the amount of my fine.

Sincerely,

Leslie K. Green, Associate Minister
